Portfolio

PROFILE

Fourth-year engineering student building AI systems and cloud applications that hold up in production: a generative-AI multi-agent system deployed on my own on Microsoft Azure (2026), an internship in a regulated environment (pharmaceutical quality control), and selection to represent Morocco in Huawei Seeds for the Future.

EXPERIENCE

Smartovate Ltd · AI & Cloud Engineering Intern — London, UK (remote) · Jul – Aug 2026

- Designed and deployed a **generative-AI multi-agent system** to production on my own (AutoGen 0.4, Azure OpenAI GPT-4o, FastAPI, Docker, Azure Container Apps).
- Delivered **18/18 tasks and 7/7 deliverables** over 4 Agile sprints (Jira), closed up to 11 days early.
- Raised test coverage from **38 % to 100 %** (63 tests); **47.3 s median latency** in production against a 60 s threshold.

Huawei — Seeds for the Future 2025 · International programme, representing Morocco — Dongguan & Shenzhen, China · Aug 2025

- Selected to represent Morocco; training by Huawei engineers (cloud, AI, 5G, Digital Power) alongside students from more than ten countries.

Promopharm S.A. (Hikma Pharmaceuticals group) · Physico-chemical Quality Control Intern — Had Soualem, Morocco · 13 Jul – 13 Aug 2026

- **GMP**-regulated lab: HPLC, GC, UV-Vis, Karl Fischer, dissolution; **ALCOA+** data integrity.
- Followed an HPLC assay end to end; wrote a 64-page report structured as an audit.

PROJECTS & AWARDS

- **RallyIA Future Lab hackathon** (3rd prize, e-Government category · Merzouga, 2026) : Designed and pitched a digital-governance solution against other engineering student teams.
- **Diabetes prediction** (Academic project) : Supervised machine-learning pipeline in Python, from data preparation to model evaluation.
- **Suite CQ** (Personal prototype · 2026) : Simulation of a QMS/LIMS for a physico-chemical control lab, following on from my proposal at Promopharm.

SKILLS

AI & data	Python · generative AI · multi-agent systems (AutoGen) · Azure OpenAI GPT-4o · machine learning · SQL
Cloud & DevOps	Microsoft Azure (Container Apps, Container Registry, Cosmos DB, Managed Redis, Log Analytics) · Docker · Git/GitHub
Development	FastAPI · REST APIs · pytest / pytest-cov · Streamlit · C · C++ · MATLAB · Arduino · SolidWorks
Methods	Agile/Scrum (sprints, Jira) · automated testing · secrets management · technical documentation
Health & quality	GMP · ALCOA+ data integrity · HPLC · medical image and signal processing
Languages	Arabic: native · French: fluent · English: fluent

EDUCATION

Engineering degree (Diplôme d'Ingénieur), Digital Engineering and AI in Healthcare — currently in year 2 of 3 — SUPTECH SANTÉ, Université Internationale Bleue — Mohammedia, Morocco — 2025 – 2028

Key courses: artificial intelligence techniques, machine learning, data mining, advanced databases, web development, signal processing.

Integrated preparatory classes — SUPTECH SANTÉ — Mohammedia, Morocco — 2023 – 2025

Baccalaureate in physical sciences (French option), highest honours (mention Très bien) — Lycée Alexandre — Casablanca — 2023

TRAINING & COURSE CERTIFICATES

- **Huawei ICT Academy** — Digital Power (Oct 2025) and AI Basic: Overview of AI (Jan 2026): course exams passed (course certificates, not Huawei/HCIA certifications).
- **CompTIA Security+ (SY0-701) and AWS Certified AI Practitioner (AIF-C01) preparation** — Smartovate / Subul, Aug 2026: official exams not yet taken.
- **AI-MEDX 2026 Global Summit** (explainable medical AI, UM6P) — certificate of participation, 18 CPD hours, Nov 2026.

LEADERSHIP & INVOLVEMENT

- **AIESEC Mohammedia** — Vice President, Outgoing Global Talent (Dec 2025 – Jan 2026).
- **AMIIA** — active member since Jul 2026, delegate to AI-MEDX 2026.
- **Apex Digital, UIB** — founding member, president then treasurer (May – Jul 2026).
- **SUPTECH SANTÉ** — co-organised the tajwid competition (2 editions) and chess tournaments.
