2	18/18	100 %	Huawei	3rd prize	3
internships in 2026: AI & cloud, pharma quality control	specification tasks delivered to production	test coverage, 269/269 lines	Seeds for the Future 2025, representing Morocco	RallyIA hackathon, e-Government category	languages: Arabic, French, English

PROFILE

Fourth-year student in a five-year engineering programme, I build AI systems and cloud applications that hold up in production. In 2026 I designed and deployed, on my own, a **generative-AI multi-agent system** on **Microsoft Azure**, delivering 100 % of the specification, and spent a month in a **regulated environment** (pharmaceutical quality control). Selected to represent Morocco in **Huawei Seeds for the Future** (China, 2025).

Open to internships and projects in AI, data, cloud and software, with a particular interest in digital health.

EXPERIENCE

Smartovate Ltd

London, UK (remote) · Jul – Aug 2026

AI & Cloud Engineering Intern

- Designed and deployed a **generative-AI multi-agent system** on my own, from specification to production (Microsoft AutoGen 0.4, Azure OpenAI GPT-4o): 4 agents in a hub-and-spoke topology behind an authenticated FastAPI REST API.
- Delivered **18/18 tasks and 7/7 deliverables** over 4 Agile sprints tracked in Jira (29 tickets), closed up to 11 days early.
- Raised test coverage from **38 % to 100 %** (63 tests, 269/269 lines) against a contractual target of 80 %; scope pinned in a versioned `.coveragerc`, so the figure is reproducible.
- Measured a **47.3 s median latency** in production (required threshold: 60 s) and **15/15 successful** end-to-end runs.
- Provisioned and secured **7 Azure resources** (Container Apps, Container Registry, Cosmos DB, Managed Redis, Log Analytics); 11 secrets via `secretRef`. A forced migration to Managed Redis required no application-code change (dependency inversion).

Huawei — Seeds for the Future 2025

Dongguan & Shenzhen, China · Aug 2025

International programme, representing Morocco

- Selected to represent Morocco in Huawei's flagship programme for young digital talent (Huawei Talent Development Flagship Project).
- Training delivered by Huawei engineers: **cloud computing, AI, 5G and Digital Power**; teamwork with students from more than ten countries.
- Followed up with two Huawei ICT Academy courses, exams passed: Digital Power (Oct 2025) and AI Basic (Jan 2026).

Promopharm S.A. (Hikma Pharmaceuticals group)

Had Soualem, Morocco · 13 Jul – 13 Aug 2026

Physico-chemical Quality Control Intern

- Worked in a **GMP**-regulated lab: HPLC, GC, UV-Vis, Karl Fischer, dissolution; **ALCOA+** data integrity.
- Followed an HPLC assay end to end, from weighing to the signed register entry, and spotted an appearance non-conformity during a visual inspection.
- Wrote a 64-page report structured as an audit and proposed a digital twin of the lab (a proposal, not an implementation).

PROJECTS & AWARDS

RallyIA Future Lab hackathon
3rd prize, e-Government category · Merzouga, 2026
Designed and pitched a digital-governance solution against other engineering student teams.

Diabetes prediction
Academic project
Supervised machine-learning pipeline in Python, from data preparation to model evaluation.

Suite CQ
Personal prototype · 2026
Simulation of a QMS/LIMS for a physico-chemical control lab, following on from my proposal at Promopharm.

Vital-signs wristband
IoT · 2024 – 2025

Arduino/C++ prototype measuring heart rate, blood pressure and body temperature.

Rabies: act fast
In progress · 2026

Awareness tool in Arabic, Moroccan Darija and French: first aid after a bite and where to get vaccinated.

SKILLS

AI & data	Python · generative AI · multi-agent systems (AutoGen) · Azure OpenAI GPT-4o · machine learning · SQL
Cloud & DevOps	Microsoft Azure (Container Apps, Container Registry, Cosmos DB, Managed Redis, Log Analytics) · Docker · Git/GitHub
Development	FastAPI · REST APIs · pytest / pytest-cov · Streamlit · C · C++ · MATLAB · Arduino · SolidWorks
Methods	Agile/Scrum (sprints, Jira) · automated testing · secrets management · technical documentation
Health & quality	GMP · ALCOA+ data integrity · HPLC · medical image and signal processing

EDUCATION

SUPTECH SANTÉ, Université Internationale Bleue — Mohammedia, Morocco 2025 – 2028
Engineering degree (Diplôme d'Ingénieur), Digital Engineering and AI in Healthcare — currently in year 2 of 3
Key courses: artificial intelligence techniques, machine learning, data mining, advanced databases, web development, signal processing.

SUPTECH SANTÉ — Mohammedia, Morocco 2023 – 2025
Integrated preparatory classes
Mathematics, physics and engineering sciences.

Lycée Alexandre — Casablanca 2023
Baccalaureate in physical sciences (French option), highest honours (mention Très bien)

TRAINING & COURSE CERTIFICATES

- **Huawei ICT Academy** — Digital Power (Oct 2025) and AI Basic: Overview of AI (Jan 2026): course exams passed (course certificates, not Huawei/HCIA certifications).
- **CompTIA Security+ (SY0-701) and AWS Certified AI Practitioner (AIF-C01) preparation** — Smartovate / Subul, Aug 2026: official exams not yet taken.
- **AI-MEDX 2026 Global Summit** (explainable medical AI, UM6P) — certificate of participation, 18 CPD hours, Nov 2026.
- What Is Generative AI? (LinkedIn Learning, 2025) · AI for Beginners (HP LIFE, 2025) · AI Basics: Overview of AI (Huawei Talent Online, 2024).

LEADERSHIP & INVOLVEMENT

- **AIESEC Mohammedia** — Vice President, Outgoing Global Talent (Dec 2025 – Jan 2026), after four months as a member: guided young people towards international internships.
- **AMIIA** (Moroccan Association for Innovation in Artificial Intelligence) — active member since Jul 2026, delegate to AI-MEDX 2026 (UM6P).
- **Apex Digital, UIB** — founding member, president (May 2026) then treasurer (May – Jul 2026): governance and budgets.
- **SUPTECH SANTÉ** — co-organised the school's Quran recitation (tajwid) competition (editions 1 and 2) and inter-class chess tournaments (2nd place in 2024, 3rd in 2025).
- **Association des Amis de Hay Hassani** — volunteer organiser of the Casablanca International Race (13th and 14th editions, 2024 and 2025).
- **Digital Upskilling MENA AI Forum** — participant, Rabat, September 2026.
